IP Address: 128.61.238.215

INSTALLATION BY OS

Windows

1. Download the Xerox Global print driver, a copy can be obtained at the link below.
2. Go to Control Panel and select Devices and Printers, then Add a Printer.
3. Select "The printer that I want isn't listed"
4. Select "Add a printer using TCP/IP address or hostname" and press Next.
5. Enter the IP Address above, press Next.
6. On the Install printer driver dialogue, press Have Disk and navigate to the Xerox Global Print Driver folder and then into the UNIV folder contained within. There will be a x3UNIVX.inf file. Select it and press Open and then Next.
7. The copier name can be whatever you prefer.

Mac

1. Download the Xerox Global Print Driver for Macs (can be downloaded at the link below)
2. Run the .pkg installer and Select Continue to proceed through the License agreement.
3. Select Install.
4. On the Select a Printer step, click on the following icon: 
5. Enter the IP address of the copier above and you will see its information appear below. Press continue.
6. You will be asked if you want to make it the default and print a test page. Then press Continue followed by Close.
7. Once added, the printer can be renamed if needed. Also once the print driver is installed, additional copiers can be added directly by pressing the + icon and entering the IP address and selecting IPP as the protocol. The correct driver should automatically be selected when it queries the copier.

Linux

1. Download the Xerox Global Print Driver for your Linux distribution located at <http://> Select rpm if you are running RedHat and deb if using Ubuntu.
2. Install the package on your system to create a directory in /opt/Xerox
3. Open a terminal. Within the /opt/Xerox directory run ./xeroxprtmg
4. In the Xerox Print Manager window, click this icon  and an Install Printers dialogue will appear.
5. Click  on the Install Printers window for a manual setup.
6. On the next dialogue, enter whatever name you prefer for the copier queue, select Xerox Altalink C8055 as the model, and enter the IP address listed above.
